

Inspire Young Minds

- Engineers make Bridges
- Artists make Paintings
- Scientists make Rockets
- But Teachers make them All.

I really like the ability to still explore higher level chemistry while being a teacher, whether it is through college level teaching (evening labs or online classes) or summer opportunities like the Quarknet group. Having summers off allows for time to go explore and still be involved with industry level chemistry.

T. Plantt,
Greeley West High School

Changing the conversation around
STEM teacher recruitment

**'THINKING ABOUT
TEACHING
CHEMISTRY?'**

Did you know...

There are student **loan forgiveness** programs and **scholarships** for science and math teachers¹

Mid-career **teacher salaries** typically range between \$60,000 and \$130,000²

Most teaching jobs have better **retirement benefits** than private industry³

Teachers **rate their lives better** than all other occupation groups, trailing only physicians⁴

Behind every advance in medicine or technology is a **teacher who left a lasting impression**

You can get a **job almost anywhere** as a chemistry teacher²

Teaching is one of the best ways to **work abroad**, teaching chemistry in an American school⁵
