

Faculty Presentation Checklist

This checklist is for presenters preparing a Get the Facts Out presentation for faculty and staff

Before you begin

- Register your presentation at [this link](#).
We can then send you survey results, connect you to the latest resources, and give you credit for your work.

What should a presentation look like?

- 15-60 min for local presentations; 45-90 for non-local.
- The key message of Get the Facts Out is emphasized:
Teachers in the U.S. rate their lives better than all other occupation groups, trailing only physicians.
- Time is provided for active processing of data about teaching as a profession before and during discussion.
- Time is provided for peer discussion.
- Participants are provided with an opportunity to review locally-relevant data about teaching as a profession:
 - Local audiences: Information on teacher salaries and retirement updated with local data.
 - National audiences: Time is provided for the audience to mine their local data.

What should you do as a presenter?

- Share the positive aspects of teaching as a profession that are supported by data.
- Avoid voicing misperceptions about teaching as a profession.
- If participants express misperceptions about teaching as a profession, provide fact-based corrections.
- Avoid providing airtime for anecdotal aspects of teaching as a profession (often negative and not supported by data).
- Facilitate participant discussion.

After the presentation

- If not already done, [log your activity](#) in order to receive credit and survey results.
- Fill out the [self-assessment worksheet](#) to document the event and plan for next time.

Facts Out

Changing the conversation around
STEM teacher recruitment

Presentation Outcomes

- 1) The audience will have positive attitudes towards teaching as a profession.
- 2) The audience will engage in ideas about teaching as a profession after the presentation (e.g., by reflecting, sharing, and engaging in conversation).

DID YOU
KNOW?

Teachers in the U.S. rate their lives better than all other occupation groups, trailing only physicians.

Most teaching jobs have better retirement benefits than other jobs you can get with the same degree.

There are student loan forgiveness programs and scholarships for math and science teachers.

You can get a job almost anywhere in the U.S. or abroad as a math or science teacher.
